

# RSA Identity Governance and Lifecycle

## 7.2.1 Patch 13 Release Notes

### Fixed Issues

#### Access Request

Issue	Description
SF-02358584 ACM-114544	Rules requests get stuck in "Pending Submission", then they get "Cancelled" when deletePendingSubmission runs.
SF-02287334 ACM-113225	Change Request Requestor or System Administrator are the only users allowed to take actions on the requests in Pending Submission phase.
SF-01767712 ACM-110590	AFX was unable to update the state of change item in IG&L application when revoking entitlements of already deleted accounts.

#### Change Requests and Workflow

Issue	Description
SF-02322387 ACM-113641	Approvals not getting assigned to configured users.

#### Collector

Issue	Description
SF-01818921 ACM-113873	CSV based collector failed to collect all data and circuit breaker tripped. HXTT driver has been updated.

#### Reviews

Issue	Description
SF-02361794 ACM-114575	"Maintain" and "Maintain with Expiration" not working in multi-step review.
SF-02352710 ACM-114299	Change Request is not getting created through User Access review and going in to Pending Submission state.

#### Rules

Issue	Description
SF-02348757 ACM-115362	The role membership rule difference (UOOC) is not generating any CRs.
