# About RSA

RSA is the premier provider of security, risk and compliance management solutions for business acceleration. RSA helps the world's leading organizations succeed by solving their most complex and sensitive security challenges. These challenges include managing organizational risk, safeguarding mobile access and collaboration, proving compliance, and securing virtual and cloud environments.

RSA helps more than 30,000 customers around the world take command of their security posture by partnering to build and implement business-driven security strategies. With RSA's award-winning cybersecurity solutions, organizations can effectively detect and respond to advanced attacks; manage user identities and access; and reduce business risk, fraud and cybercrime. For more information, please visit www.RSA.com

# SecurID Education (RSA University)

RSA University (RSAU) offers technical training solutions that bolster performance of your security team and boost the security savvy of your organization's employee population. RSA University is your single source of learning for product enablement, certifications, and industry training that secures your world.

RSAU offers product training in a variety of learning modalities to meet every need of our customers. This catalog will review the product training for SecurID suite products – including learning paths, course descriptions, pricing, subscription models, and certification. RSAU also delivers a variety of information security training and certification programs in the field of cybersecurity.

# SecurID® Suite

## Modernizes your approach to secure access

SecurID Suite enables organizations of all sizes to mitigate identity risk and maintain compliance without impeding user productivity. It ensures users have appropriate access and confirms they are who they say they are with a modern, convenient user experience. In addition, SecurID Suite provides unified visibility and control across organizations' many islands of identity.

## SecurID® Access Product Definition

RSA SecurID Access delivers secure and convenient access for any user, from anywhere, to anything whether in the cloud or On-Premise. RSA SecurID Access offers strong authentication, secure access and single sign-on to a variety of Web and SaaS applications, native mobile apps and traditional enterprise resources including VPNs, firewalls, virtual desktops and Windows or Linux workstations. RSA University offers training for individuals in various deployment, administrative, and support roles.

To help determine what courses are right for you, please examine our course descriptions to determine the best fit for your particular job role and areas of interest. Note that SecurID Access training courses include both traditional Authentication Manager as well as the latest Cloud-based components.

## SecurID® Governance & Lifecycle Product Definition

RSA Identity Governance and Lifecycle gathers disparate identity, account and entitlement information into one managed source giving you visibility of *who* has access to *what* and if that access is *appropriate*. The platform automates access certification, access request & fulfillment and includes various levels of approval & notification options. The policy-driven platform also governs remediation of segregation of duty violations and other rule triggered events. You can't manage what you can't see.

Obtain the skills needed to automate the monitoring, certification, reporting and remediation of entitlements to ensure appropriate access. Hone your ability to deliver a streamlined request, approval, and fulfillment process with embedded policy controls for your organization.

To help determine what courses are right for you, please examine our course descriptions to determine the best fit for your particular job role and areas of interest.

# SecurID Training Modalities

SecurID training is available in both live and self-paced modalities. Live training is as it sounds – training delivered by a live instructor. During this time of COVID-19, all live training is delivered virtually through Zoom or an acceptable substitute if required.

With live training, you can enroll in a course that is open to the public and enjoy working alongside students from other organizations and industries. Or, if you have several learners to train (8+), you might consider purchasing a dedicated/private class in which the instructor works only with your group in a private session.

If it is difficult for you to find several consecutive days to dedicate to training, or if you're student who learns best by working on your own, consider our on-demand courses. Most of the courses that are delivered live are also available in the on-demand format. In addition, we have several courses that are shorter in duration and are only available on-demand.

- **Live Classroom** – Class taught face-to-face with an instructor in the classroom.

- **Virtual Classroom** – Class taught live by an instructor via Zoom.

- **On-Demand Classroom** – This is the asynchronous version of a Live or Virtual classroom training but is delivered online in a self-paces format. This modality covers the same content that is taught in the Live or Virtual Classroom versions of the course and uses the same virtual lab environment.

- **On-Demand Lab** – Asynchronous online content delivered online and uses a lab environment for hands-on exercises. This modality is the same as the On-Demand Classroom in concept. The only difference is that there is not a Live or Virtual Classroom equivalent of the On-Demand Lab. This modality is never taught live by a teacher. Pricing for this modality is generally less than Live, Virtual, or On-Demand classroom offerings.

- **On-Demand Learning** – Asynchronous online education component. These are most often a free offering and never have a lab component included.

# SecurID Access Training

## New to SecurID Access?
### Start here with the **free** Getting Started series.

### Click each course name to visit the full course description page.

### Introduction to the RSA SecurID Access Solution

This on-demand learning provides a high-level description of the functions and features available in the RSA SecurID Access product line. Descriptions of how each component contributes to user authentication for on-premise and cloud-based resources is provided in a highly interactive format. Major system components, supported applications, and end user authentication flows are discussed.

### Introduction to RSA SecurID Access Architecture

This on-demand learning presents a technical description of the components used in an RSA SecurID Access system; how the components are used to accomplish user authentication and resource protection; and the communication paths, processes, and protocols between the components

ALL GETTING STARTED COURSES ARE AVAILABLE AS FREE ON-DEMAND LEARNINGS. SIMPLY CREATE AN ACCOUNT AT HTTPS://EDUCATION.DELLEMC.COM TO BEGIN.

# Ready for full Administration Training?

These courses will prepare you to manage your own SecurID Suite Products.

Click each course name to visit the full course description page.

## RSA SecurID Access I - Administration

This **4-day** training course describes the functions and operations associated with managing endpoint and cloud application protection utilizing multi-factor authentication approaches. Hands-on exercises paired with practical use cases provide a rich educational experience to quickly gain expertise on the RSA

Cost: 4,000 training credits per student.
Available in live delivery and self-paced formats.

## RSA SecurID Access II - Infrastructure Administration and Tuning

This **4-day** training course describes how to deploy and install RSA cloud application and on-premise endpoint security components.
Hands-on exercises paired with practical use cases provide a rich educational experience to quickly gain expertise in deploying an RSA SecurID Access system.

Cost: 4,000 training credits per student.
Available in live delivery and self-paced formats.

## Embedding a SecurID Access Identity Router

This On-Demand Lab training describes and provides hands-on practice in embedding an RSA SecurID Identity Router into an existing RSA Authentication Manager server.

This course is designed to augment previous training or experience with RSA SecurID Access and explain how an Identity Router can be embedded in an RSA Authentication Manager server.

Cost: 500 training credits per student.

## RSA SecurID Access Self-Guided Exploration Lab

This On-Demand lab enables students to explore all available features of the RSA SecurID Access platform with minimal step-by-step instructions. Learners are presented with general suggestions and cases where they can start to populate users, create policies, and construct other scenarios that they may not want to attempt in their production systems or explore features and functions not currently licensed to them. Experience in this lab environment can also help prepare for RSA certification.

Cost: 500 training credits per student.

## Troubleshooting RSA SecurID Access

This On-Demand learning presentation provides an introduction to troubleshooting RSA SecurID Access from an experienced Professional Services perspective. Experience from an RSA subject matter expert and demonstrations make this presentation highly interactive and informative.

Cost: 100 training credits per student.

# SecurID Governance and Lifecycle Training

# New to SecurID G&L?
## Start here with the **free** Getting Started series.

### Click each course name to visit the full course description page.

### SecurID Governance and Lifecycle Product Overview

This on-demand learning introduces the challenges of managing identity risks, how to extract the most relevant identity risks in an organization and address these challenges with the customer.

### SecurID Governance & Lifecycle Product Fundamentals

This on-demand learning series introduces basic concepts across a variety of functions, capabilities, and operations available in the RSA Identity Governance and Lifecycle product.

### SecurID Governance & Lifecycle: Deployment Scenarios

This On-Demand e-Learning course discusses in detail the various supported deployment options for RSA Identity Governance and Lifecycle. Content includes criteria for decision-making purposes and shows why or when you would choose one deployment option over the other.

### SecurID Governance & Lifecycle: Access Reviews for Managers

This On-Demand learning course introduces insights on how to perform Access Reviews once assigned to reviewers.

**ALL GETTING STARTED COURSES ARE AVAILABLE AS FREE ON-DEMAND LEARNINGS. SIMPLY CREATE AN ACCOUNT AT HTTPS://EDUCATION.DELLEMC.COM TO BEGIN.**

# Ready for full Administration training?

These courses will prepare you to manage your own SecurID Suite Products.

Click each course name to visit the full course description page.

## SecurID Governance and Lifecycle I - Administration

This **4-day** instructor-led training provides an overview of the concepts, processes, and procedures necessary to successfully use, configure and administer RSA Identity Governance and Lifecycle. It is intended to give new RSA IGL administrators a foundation of knowledge to build applications, collectors, configure reviews, create reports and dashboards, and understand the fundamentals of the Access Request module.

Cost: 4,000 training credits per student.
Available in live delivery and self-paced formats.

## SecurID Governance and Lifecycle II - Advanced Configuration and Design

This **4-day** training course describes how to deploy and install RSA cloud application and on-premise endpoint security components.
Hands-on exercises paired with practical use cases provide a rich educational experience to quickly gain expertise in deploying an RSA SecurID Access system.

Cost: 4,000 training credits per student.
Available in live delivery and self-paced formats.

## RSA Identity Governance & Lifecycle Self-Guided Exploration Lab

This On-Demand lab enables learners to explore RSA Identity Governance & Lifecycle and all underlying features. The lab environment is equipped with existing data and a general roadmap that will provide learners with hands-on experience on all major system features.

Cost: 500 training credits per student.

# SecurID Suite On-Demand Subscriptions

**Start your learning journey** to Business-Driven Security with RSA University's On-Demand Subscription. This offering provides learners a flexible way to access the training they need, and when they need it. The subscription allows self-paced enablement at a significant discount versus Live Classroom training.

Each subscription is value-priced to allow a single student to select the On-Demand courses of interest during the one (1) year subscription period. Courses designated in the catalog as "Coming Soon" as well as any new training which becomes available as an On-Demand delivery option are included in these On-Demand Subscription(s).

| 1-Year Individual Subscription Option Descriptions | Subscription SKU/Pricing* | |
| --- | --- | --- |
| **RSA SecurID Access** On-Demand (OD) Subscription: includes **all** OD Classroom , OD Labs  and OD Learning | ED-SID-ODSUB-LVL1 | $5.000 USD |
| **RSA Identity Governance & Lifecycle** On-Demand (OD) Subscription: includes **all** OD Classroom , OD Labs  and OD Learning | ED-IGL-ODSUB-LVL1 | $5,000 USD |

- *Consult your RSA Sales or Partner Rep for local (Geo-based) pricing; no other discounts apply. Value is not transferable. Training credits cannot be used for this special offer.*

### BENEFITS

- One easy transaction
- Over 2x the value vs. buying individually
- Convenient, self-paced curriculum
- Content equivalent to Live Classroom, including the same hands-on labs
- Great way to get the training needed to get certified (self-paced training allows you to go back and take modules over as needed)
- Pearson Vue certification voucher included

# OD Subscription FAQ

**How do you decide if the subscription is right for you, or for your learners?**
• If you (or your learners) need more than a single course AND self-paced training is a comfortable option, consider the subscription.

**What happens if I am working in a lab and I get stuck? What do I do if I have a question about something in the class? Is there help available?**
• Absolutely. Every week, we designate either an instructor or an instructional designer within our team to be on call and to help learners address any issues they might face. To get help, you simply submit a ticket and one of us will reach out to you with assistance. You're never left to go it alone.

**Can I still take live training if I purchase a subscription?**
• Live training is not included as part of the subscription, but you're welcome to purchase a seat in a live class in addition to the subscription if you wish.

**What if I buy a subscription for someone and that person leaves our company before the subscription expires? Can you reassign the subscription to someone else?**
• We handle this on a case-by-case basis. If the first learner has already consumed the training, no reassignment would be possible. However, if the first learner did not yet begin training, we can usually reassign for the remainder of the life of that subscription.

# SecurID Training Pricing Matrix

| Course Title | SKU/Part Number | Duration | Price (USD) | # TCs* |
|---|---|---|---|---|
| **SecurID Access Training** | | | | |
| Introduction to the SecurID Access Solution | NA | 60 min | $0 | - |
| Introduction to SecurID Access Architecture | NA | 30 min | $0 | - |
| Troubleshooting SecurID Access | ED-SID-TRAINCREDIT (Qty 200) | 2 hrs | $100 | 100 |
| SecurID Access I – Administration – **Single Seat** | ED-SID-TRAINCREDIT (Qty 4000) | 4 days | $4000 | 4000 |
| SecurID Access I – Administration – **Single on-demand classroom purchase** | ED-SID-ADM-ODC | 32 hours | $4000 | 4000 |
| SecurID Access I – Administration – **Dedicated class for up to 10 students** | ED-SID-ADM-210 | 4 days | $30,000 | 30,000 |
| SecurID Access II – Infrastructure Administration and Tuning – **Single Seat** | ED-SID-TRAINCREDIT (Qty 4000) | 4 days | $4000 | 4000 |
| SecurID Access II – Infrastructure Administration and Tuning - **Single on-demand classroom purchase** | ED-SID-INFATUN-ODC | 32 hours | $4000 | 4000 |
| SecurID Access II – Infrastructure Administration and Tuning - **Dedicated class for up to 10 students** | ED-SID-INFATUN-210 | 4 days | $30,000 | 30,000 |
| SecurID Access Self-Guided Exploration Lab | ED-SID-LAB-SGXPLR | 2 hours | $500 | 500 |
| Embedding a SecurID Access Identity Router | ED-SID-LAB-ESAIR | 10 Hours | $500 | 500 |
| **SecurID Governance and Lifecycle Training** | | | | |
| SecurID Governance and Lifecycle Product Overview | NA | 20 min | $0 | - |
| SecurID Governance and Lifecycle Fundamentals | NA | 1 hour | $0 | - |
| SecurID Governance and Lifecycle Deployment Scenarios | NA | 15 min | $0 | - |
| SecurID Governance and Lifecycle review access for Managers | NA | 30 mins | $0 | - |
| SecurID Governance and Lifecycle I – Administration - **Single Seat** | ED-IGL-TRAINCREDIT (Qty 4000) | 4 days | $4000 | 4000 |
| SecurID Governance and Lifecycle I – Administration - **Single on-demand classroom purchase** | ED-IGL-ADMI-ODC | 32 hours | $4000 | 4000 |
| SecurID Governance and Lifecycle I – Administration - **Dedicated class for up to 10 students** | ED-IGL-ADMI-210 | 4 days | $30,000 | 30,000 |
| SecurID Governance and Lifecycle II – Advanced Configuration and Design - **Single Seat** | ED-IGL-TRAINCREDIT (Qty 4000) | 4 days | $4000 | 4000 |
| SecurID Governance and Lifecycle II – Advanced Configuration and Design - **Single on-demand classroom purchase** | ED-IGL-ADMII-ODC | 32 hours | $4000 | 4000 |
| SecurID Governance and Lifecycle II – Advanced Configuration and Design - **Dedicated class for up to 10 students** | ED-IGL-ADMII-210 | 4 days | $30,000 | 30,000 |
| RSA Identity Governance & Lifecycle Self-Guided Exploration Lab | ED-IGL-LAB-SGXPLR | 2 hours | $500 | 500 |
